Welcome to the ACADEMY

Knowledge is power

The networking of people and knowledge is the key to success – and this applies to the future as well. The HellermannTyton ACADEMY is your interface for sharing, utilising and multiplying knowledge and makes an exchange of experience possible.

Use the ACADEMY as an opportunity to gain further qualifications and new contacts to develop and increase your business successfully.

Get inspired by our films

Our shared goal: Success through knowledge

Success multiplies when knowledge is shared

The ACADEMY ensures a global exchange of information in all areas and at all levels. Everyone is cordially invited to share their own knowledge. Together we will become more successful.

Special developed training sessions – tailor-made to your specific needs – offer you the possibility to find out about our products and new developments as well as the application thereof in different markets and industries.

As our customer, you are an integral part of the ACADEMY – it grows through your interaction with us whilst also making a valuable contribution towards the successful improvement of your own business.

Welcome to the team!

Our goal is to be your first choice in cable management solutions. A well-founded exchange of experiences forms an excellent basis for competent knowledge and professional activities in all markets, for all products and all companies.

Increased knowledge makes your work easier and shortens processes, which in turn makes it possible to guarantee success over the long term while shaping our future together.

The ACADEMY – your benefit:

- The ACADEMY promotes creativity and interdepartmental thoughts and actions.
This is important, particularly where complexities challenge us.
- Improve your knowledge of the products and take advantage of the possibilities offered by HellermannTyton.
- Boost your competence with targeted training and thus your perspectives of success.
- Facilitate your work and shorten processes in order to reduce your work time.
- Benefit from the know-how of other experts and specialist teams.
- Gain new contacts across different specialist areas.
- Use the ACADEMY as a platform for remaining up-to-date.

With your involvement, we will work as a united global team to make the ACADEMY a personal and professional success story – for you and for HellermannTyton!

An advantage through expertise: The ACADEMY in Vienna

Our vision

HellermannTyton CEE is a manufacturer and provider of innovations and solutions in all areas of cable management. Highly qualified and motivated staff offer our customers the best possible service – directly and also via our sales partners.

We market the entire HellermannTyton product portfolio plus specialist local solutions.

We offer innovative solutions with the support of development engineers and on-site technicians as well as local production partners. This enables us to guarantee the highest levels of flexibility while fulfilling the requirements of our customers as quickly as possible.

Whether on your premises, or at our ACADEMY in Vienna, we supplement our range of services with advice, training and practical courses to ensure you the best possible support and an optimum exchange of knowledge.

We constantly work to identify trends and use the most modern approaches to actively develop tomorrow's system solutions. Come with us and discover the future of cable management and its associated technologies.

The ACADEMY in Vienna

Are you interested in market- or product-specific training? Then the ACADEMY in Vienna is the right place for you!

We have a network of dedicated trainers combined with product management, which supports you with any and all questions.

The ACADEMY in Vienna is holding training courses, workshops, expert roundtables and meetings of every description.
