

Fibre to the Mast

Better Technology through Innovation

7 Fibre Accessories - Additional Fibre Connectivity

- Pigtails
- Patch Leads
- Single mode and Multimode fibre
- Wide range of connectors and adapters

8 TipTag - Identification for Cable Bundles

- Identification markers for single or bundled cable
- Suitable for internal or external use, can be used in BTS, POP, hub, RRH and DAS applications
- Fixed to cable with HellermannTyton cable ties

9 MBT Ties - Stainless Steel Ties

- Ideal for securing external cables to the containment and management trusses
- High grade stainless steel - corrosion, chemical, weather and temperature resistant
- Non-releasing head ensures the cables are securely held in place

10 M-Boss Lite - Stainless Steel Identification

- Marine grade, embossed stainless steel marker plate to identify the cable or other physical hardware
- Ideal for harsh environments particularly on towers in DAS and RRU applications
- Markers can be fixed to the cable using HellermannTyton plastic or metal cable ties

11 CA Range - Enclosures and Wall Boxes

- Compact and light, reinforced polyester polyamide enclosure
- IP65 rating
- Suitable for indoor and outdoor mounting

12 P Series Ties - Low Profile Cable Ties

- Outside serrated to prevent damage to the jacket of the cable
- UV stabilised for external applications
- Up to 535mm long for large cable bundles

13 HDM & SA Cable Tie Mounts - Heavy Duty Mounting Clips

- Various fixing options available for securing cable ties to the support structure
- UV stabilised and suitable for harsh environments
- A selection of sizes for different ties and fixing options

Why Choose HellermannTyton

HellermannTyton is an established and innovative global leader in the provision of network infrastructure and cable management solutions, offering a broad range of quality, high performance systems for commercial and industrial use.

HellermannTyton Connectivity – The Complete Infrastructure Solution

Choosing HellermannTyton gives you peace of mind, knowing that the products will be installed easily, will perform well and continue to operate to the same high level throughout their life. You have the reassurance of comprehensive technical support and a long history in the connectivity and cable management markets. Ultimately the choice of HellermannTyton significantly reduces the risk of your project.

HellermannTyton provides an uncompromised breadth of range across the full product mix for LAN, Broadband and cable management solutions. This is demonstrated in the product catalogues listed below, all available on request or to download from the website www.hellermanntyton.com

1 Broadband Connectivity Catalogue

This comprehensive catalogue provides product information for the full broadband range. With technical drawings and quality product images, the entire broadband range is covered including Cablelok, Fibre Splice Trays and all the fibre splice closures available from HellermannTyton.

2 LAN Connectivity Catalogue

The connectivity catalogue offers detailed product data on the full copper and fibre LAN connectivity range including RapidNet, Patch Panels, Data Outlets and Fibre. The catalogue provides an overview of the products with detailed descriptions, technical information and quality images.

4 Cable Management Product Catalogue

The Cable Management Product Catalogue offers perfect solutions for all small and medium-sized installation needs. This user friendly catalogue is clear and self-explanatory, enabling you to find products easily with clearly structured, detailed product information.

5 RapidNet – Pre-terminated System Brochure

The RapidNet brochure presents an extensive overview of the flexibility and choice delivered by the number one pre-terminated solution from HellermannTyton. The RapidNet system is available in both fibre and copper formats, reducing installation times by up to 85%, and is suitable for all types of application or project.
